

UNLOCKING SUCCESS

A SHOWCASE OF SUCCESSFUL CASE STUDIES

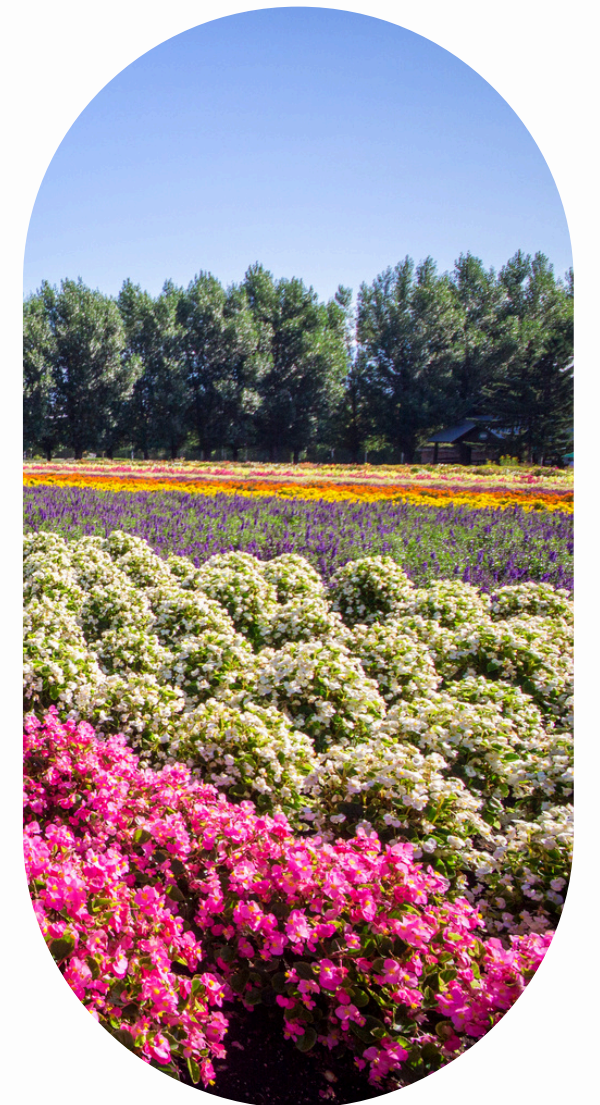

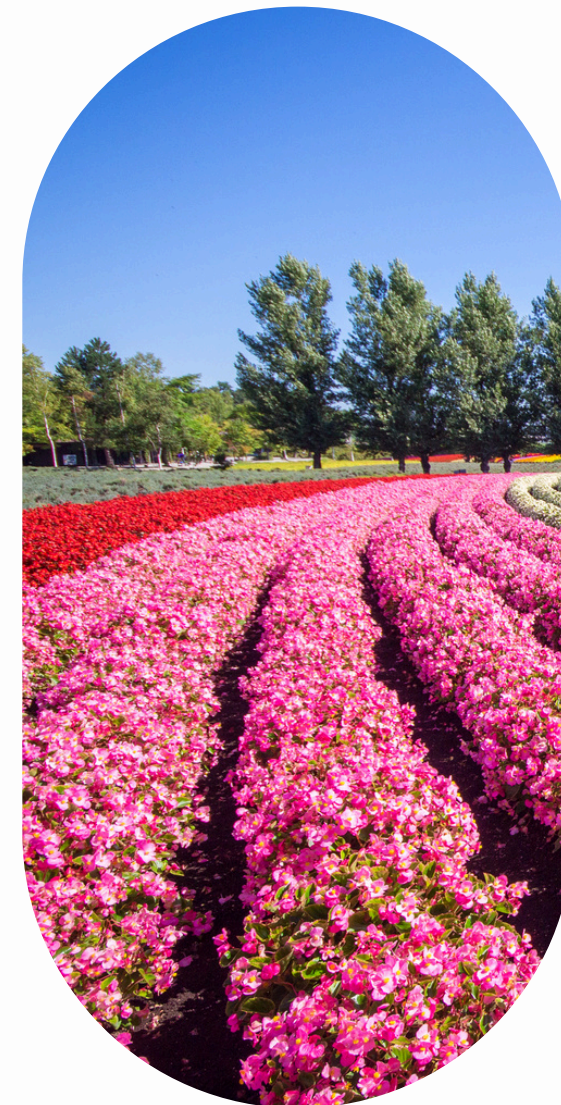

UNOSOF

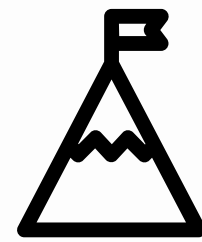

FARM MANAGEMENT SAAS

Their leading enterprise-level farm management software is tailor-made for the floral industry.

It offers a comprehensive solution for running an entire business and helps reduce costs, streamline processes, improve efficiency, and provide real-time data for farms.

Their software is built to scale and perform during peak seasons such as Mother's Day, Valentine's Day, and Women's Day.

THE CHALLENGE

Addressing UNOSOF's UI Evolution

01.

UNOSOF faced significant user growth projections, prompting a redesign of the UNOSOF ERP's user interface (UI).

02.

The UNOSOF ERP required a modern UI, balancing easy adoption for new users and low resistance to change for those accustomed to the old interface.

03.

Adapting data- and table-intensive screens for various display sizes, especially on mobile devices, presented a unique and critical challenge.

THE SOLUTION

Ortus Redesigns UNOSOF ERP's UI

01.

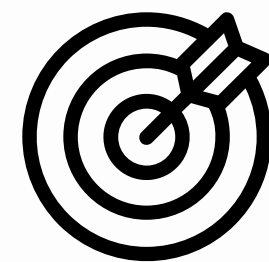

Ortus initiated the redesign with comprehensive mockups of core screens and components like Login, Navigation, Filters, Data Tables, and the PO and Inventory page.

02.

Enhanced filtering, sorting, and text search capabilities were introduced for improved user experience.

03.

Collaborative efforts with UNOSOF involved selecting essential information for display on smaller devices.

THE RESULT

Enhancing UNOSOF's User Experience

01.

The redesign significantly improved core screens, including Login, Navigation, Filters, Data Tables and the PO and Inventory page.

03.

Users can now seamlessly access critical information, enhancing overall usability.

02.

Successful implementation of mobile responsiveness for data- and table-intensive screens.

04.

UNOSOF ERP is now well-equipped to handle continued user growth with a modernized and intuitive interface.

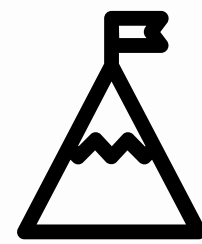

STUDENT INFORMATION SYSTEM - Sapphire K12

As a single web-based software system with all the tools you need to enhance your school and student performance, SapphireK12™ connects administrators, teachers, students, and parents.

Their software helps you capture and manage student data, generate compliant state reports, and gain insight into school and district performance.

THE CHALLENGE

Redefining User Interfaces for Educational Excellence

THE CHALLENGE

Redefining User Interfaces for Educational Excellence

01.

Redesigned many user-facing screens for specific school roles and activities.

03.

Existing views lacked quality and consistency, with significant diversity among them.

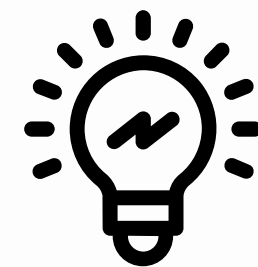

02.

Modernized single-purpose-designed views for a user-friendly interface.

04.

Discrepancies, like differences between exam and classroom interfaces, caused confusion.

THE SOLUTION

SapphireK12™ Interface Revolution

**THE
SOLUTION**

SapphireK12™ Interface Revolution

01.

Engaged experienced designers, emphasizing creative solutions for a unified and modernized environment.

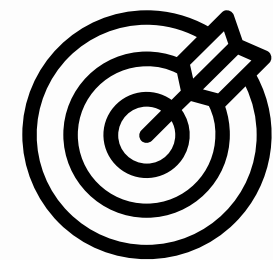

03.

Tailored views, ensuring a personalized approach for an enhanced user experience by customizing each view to meet specific user needs.

02.

Implemented a key improvement with a focus on enhancing user interaction and improving overall ease of use.

**THE
RESULT**

SapphireK12™ - Elevating Education Experiences

**THE
RESULT**

SapphireK12™ - Elevating Education Experiences

01.

Successfully redesigned to unify diverse screens, creating a consistent and user-friendly environment while enhancing user interaction.

02.

Implemented drag-and-drop feature for significantly improved user interaction and ease of use, resulting in a personalized experience.

03.

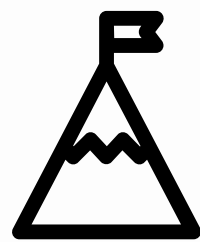

Tailoring each view to meet the unique needs of users resulted in a modernized interface that enhanced the overall experience for administrators, teachers, students, and parents.

Loeb Electric sells customizable electrical panels on an industrial scale. They approached Ortus seeking help for implementing a “Panel Builder” i.e. a way for customers’ to be able to build electrical panels online and to purchase them through a self-checkout service on their website.

THE CHALLENGE

Streamlining Complex Bid Communication

THE CHALLENGE

Streamlining Complex Bid Communication

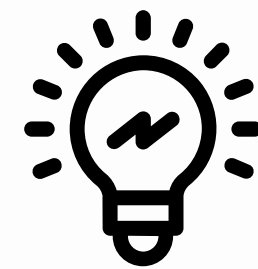

01.

Extensive communication hurdles with clients during bid creation due to dependencies and optional components.

02.

Need for a solution that allows users without electrical expertise to make informed component choices.

THE SOLUTION

Dynamic Web Implementation for Efficient Panel Building

THE SOLUTION

Dynamic Web Implementation for Efficient Panel Building

01.

Ortus transformed Loeb's complex spreadsheet into a dynamic web application.

03.

Designed to empower users with limited electrical knowledge, including customers, contractors, and sales representatives.

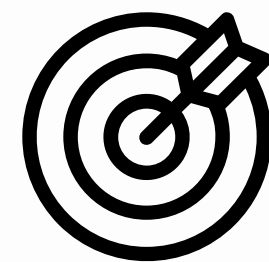

02.

The Panel Builder simplified component selection, offering detailed technical specs, dependencies, compatibility, and incompatibility details.

04.

Streamlined the process, enabling independent component selection without technician assistance.

THE RESULT

Enhancing Bid Efficiency and User Experience

**THE
RESULT**

Enhancing Bid Efficiency and User Experience

01.

The Panel Builder successfully streamlined bid creation, reducing back-and-forth communication with clients.

03.

Users with limited electrical knowledge could confidently choose components, enhancing the user experience.

02.

Users could independently select components, improving overall efficiency.

04.

Reduced the reliance on technicians for panel building, leading to increased autonomy.
